

HAZARD IDENTIFICATION

Name the hazards of this lift, this site, this day. A parking-lot form is not identification.

Working copy. Current controlled version is on this site.

WALK THE PATH

Pick, set, swing, travel, overhead lines, ground, other cranes, public, other trades.

NAME IT

Load unknowns, wind, energy, height, communication, fatigue, proximity to people. Unnamed hazards are uncontrolled hazards.

WHEN IT CHANGES

New load, new weather, new trades in the zone - identification starts again.
